Ionic foot detox is scientifically proved to help reduce stress and fatigue within the body. Ionic foot detoxing produces a feeling of general well-being and is revitalizing to the body's energy output. Ionic foot detoxing also helps to energize the body by helping to rid it of any toxins that have accumulated over time, while rejuvenating the body's cells.

What are the benefits of our Foot Detox baths?

- Purging of heavy metals
- A more balanced pH level
- Reducing inflammation
- Purging of yeast
- Detoxifying the liver
- Internal cleansing with full-body purge
- Liver, kidney, and parasite cleansing
- Enhancing the immune system

What is an ionic detox foot bath?

An ionic detox foot bath is a natural method of assisting the body in eliminating harmful toxins, heavy metals, and other harmful foreign matter.
